SUPPLY NETWORK

PRODUCT FAMILIES

Three families. One standard of precision.

01

Aluminium Wire Rods

Continuous cast and rolled rod for conductors and cables.

Specifications

02

Flat Rolled Products

Coils, sheets and circles rolled to tight tolerances.

Specifications

03 · Sub-brand

AluShade Roofing

Architectural aluminium roofing and cladding systems.

Explore AluShade

MANUFACTURING CAPABILITY

From molten metal to finished application.

01

Melt & Cast

Primary aluminium is melted, alloyed and refined under controlled chemistry.

02

Roll & Draw

Continuous rolling produces rod and strip to precise dimensions.

03

Finish & Test

Annealing, slitting and profiling, followed by lab verification of every lot.

04

Deliver & Apply

Conductors, fabrications and roofs across India's infrastructure.

MANUFACTURING EXCELLENCE

Rolling mills, coil lines and a lab that signs off every lot.

COIL HANDLING & STORAGE

QUALITY

Tested. Certified. Traceable.

In-house laboratory testing and certified management systems for every lot we ship.

Learn more

SUSTAINABILITY

Infinitely recyclable metal

Aluminium retains its properties through endless recycling — we design processes to reduce energy and scrap.
